Age: 44 | DOB: 7/13/1971 | [Female]

Date of Contact : 7/2/2015 ([phone contact with CM], 25 minutes)

[Assessment and Treatment Recommendations]

history

Patient has not responded after 10 weeks in treatment, and is not showing any side effects from Prozac. Recommend increasing dosage to 40 mg. Put medication bottle on top of alarm clock so she will remember to take it each morning.

[Comments]

Follow up again about this patient at consultation session next week.
